RECORDS RELATING TO THE EARLY HISTORY
OF BOSTON.

(FORMERLY CALLED RECORD COMMISSIONERS' REPORTS.)

THIS volume, which is the twenty-ninth in the series formerly issued under the direction of the Record Commissioners, contains Miscellaneous papers relating to the Great Fire of 1700, Lists of Freemen, Timber Building Book, 1707-27, Port Arrivals, Immigrants, etc., and was the last volume compiled under the direction of the late William H. Whitmore, who served the City as Record Commissioner from 1876 to the time of his death.

EDWARD W. MCGLENEN,
City Registrar.

PREFACE.

A FEW years ago, owing to some alteration in the office of the Fire Department, a number of presumably worthless papers were sent down to the furnaces to be destroyed. By some oversight, among them were many bundles of papers relating to the Great Fire in Boston in 1760.

Fortunately these were noticed by two or three of the employees in the Old Court House, who very kindly called my attention to the fact. I am happy to add that I have every reason to believe that I rescued substantially the whole collection, which is here set out in print. By an equal stroke of good luck it happened that I obtained, by the kindness of John Ward Dean, Esq., the use of a beautiful manuscript, giving the list of losses as prepared by the Committee appointed to disburse the liberal gifts made to aid the sufferers by the fire. It is from the comparison of these two lists that I speak so confidently as to the preservation of nearly all of the files of original claims.

This manuscript Report of the Committee is in the library of the New England Historic Genealogical Society, in a volume described as follows :

"Papers relating to Boston in New England," containing some eighteen manuscripts and one printed document, nearly all relating to the excise acts of 1754-5, bound in full calf, size 9×13 , marked $\frac{SL}{BOS}$

The papers giving the particular cases of loss now in the charge of this department have been bound up as one volume of the town papers in scrapbooks uniform with eight others covering the period from 1637 to 1832.

These papers will undoubtedly be highly valued by local antiquaries, as the most authentic and interesting picture of colonial life. The great fire struck both rich and poor, and both classes seemed impartially anxious to display the amount of their losses. As personal effects were destroyed and were to be the ground for compensation, we have herein an itemized account of the contents of Boston houses in 1760, such as even the tax-gatherers of the day could not command. Heretofore we have copied from inventories in the

probate offices, but these facts were all independent, and as a rule lists were of the richer classes only.

The following reference to the Great Fire of 1760 :

W. H. W.

HUTCHINSON'S HISTORY.

Vol. 3, p. 80.

"A fire in Boston, the night after the 20th of March, exceeded the great fire, as it had always been styled, in 1711. It began in Cornhill, at a house known by the name of the Brazen Head, south of the town-house. Three or four houses were burnt, and the progress of it seemed to be stopped, when a violent wind at northwest came on suddenly and it consumed in that direction, between Cornhill and the harbour, one hundred and fifty houses great and small. The newspapers made the damage amount to three hundred thousand pounds sterling. A brief from the governor supposed that at a moderate computation it amounted to at least one hundred thousand pounds. Others who had observed the increased value of the land upon which the houses stood, estimated the loss at not more than fifty thousand pounds, and judged, that, if the donations could have been equally distributed no great loss would have been sustained."

To the Honor^{ble} the Comons of Great Britain, in Parliament assembled.

The petition of Sarah Ayers, Fran^e. Ackley, &c. [naming all the sufferers] of Boston in the province of Massachusetts Bay.

Most humbly sheweth,

That on the 20th of March last a most terrible fire, exceeding any that ever before happened in the American colonies, broke out in the heart of the s^d. town of Boston, at the hour of two in the morning, which, increased by the wind, blowing very strong from the North West, and the flames of many wooden buildings, raged with irresistible violence, carrying all before it, and, stil widening in its progress, proceeded with such a rapid course to the water's edge, that the houses & other buildings, with the moveables of your petitioners, were in a very little time reduced to ashes, and some of your petitioners from affluent, & others from easy circumstances to great straits & indigence.

That your petitioners with their families, amounting to a large number of persons, being received with the greatest

humanity by other inhabitants of the town, to whom for their preservation they fled in their sore distress, became burthensome to them & the whole town, whose care & kindness on this occasion have been exceeding great. but your petitioners, who when they were able chearfully bore part of the comon burthen, are sensible that the inhabitants in general, howsoever well enclined, are unable to bear any considerable addition to the heavy load of taxes which for many years past has fallen upon them, far exceeding that of other colonists, in consequence of their greater exortion of themselves, in conjunction with the inhabitants of other parts of the province, to prevent French encroachments and prosecute the war against the common enemy.

That the chief part of such of your petitioners as were proprietors of the houses destroyed are unable to build others on their vacant lands, and if that be not effected, many of the distressed must of necessity soon seek their bread & habitations elsewhere, and the metropolis of the colony, which was many years the chief strength of the English interest on the continent of America, without being in the least burthensome to its mother country, will be left in a broken & declining state.

That under the direction of the government of the province, & the special care of all the proper officers of the town, an exact & particular account of the loss sustained has been taken, and is ready to be laid before this Hon^{ble}. House, whereby it appears that the whole amounted to the sum of £53334 : 5 : 5 Sterlg.

That divers sums have been received for the benefit of your petitioners, amounting to the following sums in sterling money, viz^t. By grant of the Gen^l. Court of Massachusetts province £2250. By collections in the several churches in Boston & other parts of the province £3916,,10,,5³/₄. By grants of the colonies of New York, Pensilvania, Maryland, New Hampshire & Conecticut £3358 : 0 : 4¹/₂. By donations made in the province & elsewhere, including £.3000 given by the merchants in London £.3793,, ..,, 11³/₄. which amounting to £.13317 : 11 : 9, being deducted from the value of the immediate losses sustained by your petitioners, reduces them to £40016 : 13 : 8 Sterling

WHEREFORE your most humble petitioners, oppressed with so heavy a loss, together with the great losses & disadvantages proceeding from their being so suddenly driven from their habitations & business, most humbly pray that this Honor^{ble}. House will be pleased to take their calamitous case into their compassionate consideration, and grant them such relief as to the great wisdom & goodness of this Hon^{ble}.

House shall seem proper, to assist their endeavors to support themselves and their numerous families, and to become again useful members of the commonwealth.

And your petitioners, as in duty bound, shall ever pray &c..

JOHN THOMLINSON
W. Bollan, in the name &
behalf of the Petitioners.

The hum: petit. of Sarah Ayers. Fra. Ackley and 437 other pers^s. inhab^{ts}. of Boston in New. Eng^d. to the H. House of Com^{ons}.

At a Town Meeting held in Boston on May 13, 1760, it was voted that "John Thomlinson and William Bollan of London, Esqrs., be and hereby are appointed agents for this town," etc. They presented the above petition to Parliament, but no action was taken by that body.

Other papers relating to the fire were found in the Boston Public Library, but too late to be made use of in this volume.

Shortly before this volume was ready for the press, a curious broadside, relative to the great fire of 1760, was fortunately discovered. It was printed in Boston at Fowle & Draper's, on Marlborough street, size 12 × 15, with a quaint engraving in the upper corner, 3 × 4; signed "A. J.," and it is possible that Andrew Johonnot may have been the author.

Reproductions of the same appear in this volume.

The Lists of Freemen were taken mostly from the "Records of the Governor and Company of Massachusetts Bay in New England," printed by order of the Legislature in 1853. Edited by the late Nathaniel B. Shurtleff, M.D.

The copy has been compared with the original papers on file in the State Archives, by William S. Appleton, Esq., formerly one of the Record Commissioners of Boston, and through his courtesies we are enabled to print errors noted by him on page 332.

The Lists of Freemen, taken from the County Court Records, 1671-1680, are printed for the first time.

The Timber Building Book is in the custody of the City Clerk.

The List of the Port Arrivals and Immigrants is part of a volume of records, and is also in possession of the City Clerk.

All other items, unless specially mentioned, are in the custody of this department.

EDWARD W. MCGLENEN.

A POEM

On the Rebuke of GOD's Hand
In the awful Defoliation made by

FIRE

In the Town of

Boston,

On the 20th Day of March, 1760,
By which, in about 6 or 7 Hours, between three and four hundred
Buildings were consumed :---To which is added, Some brief Hints
on the great Conflagration, and a Relation of all Things.

---Shall there be Evil in a City, if the LORD hath not done it?---

I Sing th' Almighty GOD, whose awful Hand
Dispenses Judgments over Sea and Land :
He rules the World by his unerring Skill,
And governs us according to his Will.
His Providence, which he has often wrought,
Is far beyond the most sagacious Thought.
His Ways seem dark to us, and quite unknown ;
Yet, ipso facto Justice dwells before his Throne :
To show his Mercy is his dear Delight ;
And, since 'tis so, he orders all Things right.---
His Judgments oftentimes he does retard,
While we run on in Sin and don't regard ;
And when he sends them then we think He's hard :
But pray examine, think on what's the Cause,
Isn't it Contempt of his most righteous Laws ?
Then can we clear ourselves, a'n't we to blame
Who sin without Reprieve, and cast off Shame
And pay no Reverence to his holy Name ?---
This is the Cause He sent this Judgment down,
This awful Defoliation ! on the Town.
The North-east-wind, and Flame he did employ,
Our stately Habitations to destroy.
What spacious Structures stood but th' other Day,
And now they all in Heaps of Ashes lay
I know not how to write, or to express
The awful Time, or paint the sad Distress
Of those our Friends who did to Bed retire
And wak'd surrounded by a Flame of Fire !---
The Cuck and Dying soon d to quit their Beds.
And then, perhaps, no where to lay their Heads.
O what Confusion ! what tremendous Grief !
While merciless Flames afforded no Relief !
Whole Streets of Houses soon embrac'd the Ground,
Which left the Marks of sad Destruction round !
And Goods, in vast Repertoires stord,
Were chief confusion, in burning Walls immord !
We strove in vain, we could not stop in Force
While GOD prevail'd, and did direct its Course.
O ! with what Flames did we lift up our Eyes,
To see the Flames in rolling Volumes rise,
And smoke from Buildings cloud the sparkling Skies !
An awful Emblem we did then behold
Of the Great Day, from ancient Date foretold !---
When the bright Sun, that radiant shining Car
Which hith Splendor darkens ev'ry Star,
No more shall roll his Course around the Globe,
But mourn our Fire wrap'd in a sable Robe.

The Moon will cease to give her splendid Ray ;
(While Stars are darken'd thro' the milky Way)
The shining Lustre she so often shed
Will then be cover'd in a crimson Red,
While o'er her Face a sanguine Mantle's spread,
Stars will forsake their Spheres and fall from Heav'n,
And thro' the Earth the scatter'd Flames be driv'n,
The Elements shall melt with fervent Heat,
While heavy Trains of awful Judgments meet
All Nature's final Ruin to complet.---
The heavy Rocks into the Air are hurl'd,
And Horror seizes all the guilty World :---
Thousands of Scraps through the Æther fly,
Our JUDGMENT'S Chariot then is halting nigh
And with its Swiftmess burns along the Sky.
Tremble, O Earth, Inhabitants admire
To see your JUDGE defend in flaming Fire !
And while you shudder, O lift up your Eyes !
Angelic Angels guard him through the Skies :
A sparkling Azure cleaves to make Him Way,
And now comes on the great Tribunal Day :---
All Nature owns her Great Creator---now
The towering Forests and the Mountains bow,
The melting Hills dissolve in Flames of Fire
Amazing Comets ready to expire---
---and the ALMIGHTY'S Vengeance now displays,
He in his Wrath will kindle all his Rays
And set the spacious Universe on blaze :---
Till Nature shall dissolve, and quite expire,
In one continual Mass of flaming Fire.---
O may we then be found at his Right-Hand,
And there rejoicing and triumphant stand ;
While he shall doom the Nations of the Land---
To endless Pain, or everlasting Rest !
Then may we hear those joyful Words express'd,
Come my beloved, faithful, just and true,
Possess the Realm which was prepar'd for you
Before the World her first Foundation knew.
Free-Grace forever then we shall adore,
Where earthly Troubles will molest no more,

The Subscribers, a committee appointed by the Government for the Purposes aforesaid, do hereby certify that the Accounts exhibited of the Loss in Personal Estate, were inspected with the greatest Care and Exactness; and where there was Reason to apprehend any were exaggerated, proper Deductions were made.

The Sufferers were critically examined relative to said Accounts which being now duly liquidated, and amounting together to the sum of Twenty Eight Thousand and Eight pounds, Ten shillings and Seven pence. Lawful Money of this Province equal Twenty One Thousand and Six pounds, Seven Shillings & Eleven pence,—Farthing, Sterling as appears by the foregoing Account, We verily believe to fall rather short of than exceed the real Loss.

An Estimate of the Loss in Real Estate was carefully made, at the Request of Selectmen, a part of this Committee by the Assessors of the Town of Boston, Persons whose office led them to a thorough Acquaintance with the value of said Estates; which agreeable to their Estimation amounts to Forty Three Thousand One Hundred and Three pounds, Sixteen Shilling and Eight Pence, Lawful Money of this Province equal to Thirty Two Thousand, Three Hundred Twenty Seven Pounds, Seventeen Shillings and Six Pence Sterling as appears by their Oath annexed.

We further Certify that Monies already received in Aid of the Sufferers amount to Seventeen Thousand, Seven Hundred and Fifty Six Pounds, Fifteen Shillings, and Eight Pence Lawful Money of this Province, equal to Thirteen Thousand, Three Hundred, Seventeen Pounds, Eleven Shillings, & Nine Pence, Sterling; agreeable to the Account herewith exhibited.

Thomas Hubbard, Esq. from the Committee appointed the 4th instant on Pudding lane and Joyliffs Lane gave in the following Report — Viz^t.

The Committee on Pudding & Joyliff's Laues, report That they have taken a careful View of both, and find a Number of the abutters on the West side of Pudding lane are willing to give in some of their Land for the beuefit of a good Street; but as they are much put to it for room would chearfully allow any reasonable sum towards the Purchase of Laud on the East side of that Lane, if it could be done; whereupon the Committee applied to the Owners of the Land on that side, and find them in general very willing to accommodate their Neighbours with an handsome Addition of their Land to Pudding lane, on condition they might have an adequate Allowance for it.

The Committee find some Difficulties in wideuing Joyliffs Lane, for although an Addition of 9 or 10 feet might possibly be made on the West side to run Paralell with a line on the West side of Pudding lane yet by reason of Capt. Comrius Brick Building at the Corner, the Lines of those two Laues would not run alike on the Lands lying on the East side. — And therefore having no regard to Joyliff's Lane, the Committee are of Opinion, that a South Line be run from the S. W. Corner of Mr Gridleys office over to Water, near parallel with the Line on the West side of Pudding Lane. so as to make it 25 feet (at least) wide at the Entrance thereof at Water Street.

THO^S HUBBARD.

BENJ^A AUSTIN.

A. OLIVER, JUN^R.

Which Report being read — The Committee agreed that Pudding Lane should be widened on the East side thereof agreeable to the said Report. — And the same Committee are desired to see the said Street staked out according to their Report, and that they return a Plan thereof to this Committee.

John Osborne, Esq. from the Committee appointed the 4th. instant on Leveretts Lane, made the following Report. — Vizt.

We may go in upon Deacon Salter's Ground so as to make the Street between him and Mr Lindalls Buildings about 28 feet and from thence may carry the Wedth into Atkinson Street 28 feet, which is the Wedth between Treasurer Gray's and Mr Bourn's. — indeed to come with this proposed Street to meet Atkinsons Street will make something of a Curve, but no great — which Method it's judged much better than to run the Street quite strait from

Mr Salter's into Milk Street and then to him quite short or rather Rank up Milk Street to get into Atkinson Street. —

J. O.
S. W.
T. C.

Which Report being read and considered

The Committee agreed to Widen Leveretts Lane according to the said Report — that the same run upon a Strait line to Atkinsons Street — that it be made 28 feet wide at Deacon Salter's (or 30 feet if Mr Salter shall be consenting to it) and from Mr Salters to be 35 feet wide to Milk Street, — and that the same Committee be desired to stake the same out accordingly.

Andrew Oliver, Esq. from the Committee appointed the 4th instant on Mackrel Lane; made the following Report Viz^t.

The Committee appointed to view Mackrel Lane and consider how it may be made wider & carried to Milk Street so as to open Oliver Street, are of Opinion that the same be made forty feet wide, that what is necessary in order to make it of that Wedth be taken in, from King Street to the Bridge, upon the East Side, and from the Bridge to Milk Street be taken in upon the West side, which method of laying it out will make the least Angle and will likewise make the best Opening to Oliver Street leading to Fort Hill.

The committee further propose that on the East side of Oliver Street a Line be run from the End of Col^o Wendells Wall standing before his House to a point opposite to the South end of the Garden Wall of Andrew Oliver junr. so as to keep the Street of the Wedth of about 24½ feet in that Space and that from the point aforesaid a line be run to the Southwest Corner of Mr Powells Brick house And that the Chimneys or the Walls standing in the Way of said Streets be taken down, and the Cellars or other hollow places filled up as soon as may be in order to render the said Streets passable; And that a Jury be appointed to ascertain the Value of any persons Land or Estate so taken according to Law.

A. OLIVER. pr order

Which Report being read and considered

The Committee agreed to Accept the same.

Andrew Oliver, Esq. from the Committee appointed the 4th instant, to consider the most convenient place to open a New Street into King Street to the Eastward of Mackrel Lane, made the following Report. — Viz^t.

The Committee appointed to consider the most convenient place to open a Street at the lower end of King Street, and view the same, are of Opinion, That there be a Street opened there of Forty feet wide, seven feet thereof to be taken off the East end of Mr Wheatleys House Lot, and the remainder from the Land adjoining thereto formerly the Estate of Elisha Cooke Esq, deceased, in order to make the Opening into King Street; and that a Jury be appointed to Ascertain the Value of the same according to Law; and that a Street be laid out of that Wedth from King Street on a

Strait line till it meets The Street leading to the House of Benj^a Hallowell Esq which Street the Committee propose should be likewise made forty feet wide; Provided that neither the Town nor any of the Abutters shall be compelled to be at any Expence in filling up any low places in said Street or paving the same until the Town of Boston shall see fit to give order concerning it, but that it may be lawful for any Persons notwithstanding, voluntarily to fill up said Street and make it passable without being molested or hindered in so doing; and as said Street will cross a Dock (the wharf of the North side of which is occupied by Mr Benj^a Phillips) it may be also lawful for any Persons to fill up so much of said Dock on the South side thereof as to leave it of a Wedth sufficient for Boats to pass, twelve feet wide at the least, and from thence to lay a Bridge across said Dock sufficient for Carts to pass over, and that said Bridge be laid on the most Westerly side of said proposed Street so as least to incommode the Dock below: And the Proprietors on either side of the Dock above the Bridge may at any time fill up their respective parts of said Dock; Saving that when it shall be wholly filled up, they shall lay the Common Sewer from the present mouth thereof to the Bridge aforesaid in the same manner as it is laid above.

P order of the Committee

A. OLIVER.

Which Report being read and considered

The Committee agreed that a New Street of forty feet wide should be laid open from King Street to the Eastward of Mackrel Lane to run to Mr Hallowells House in Battery March, agreeable to the said Report, And that the same be Accepted as it now Stands.

Voted that the Committee appointed for the New Street from King Street to Mr Hallowell's House — be also desired to View and consider the Street called Battery March leading from Mr Hallowells to the South Battery — and report thereon —

James Bowdoin, Esqr. from the Committee appointed the 4th. instant upon Water Street and Milk Street made the following Report — Viz^t.

The Committee appointed to consider what Alterations were proper to be made in Water Street and Milk Street have taken a View of said Streets — and find.

That Water Street where Pudding lane strikes it, is thirty nine feet wide; from whence it runs of different Wedths to Quaker lane; the North side being a curve line or making an Elbow to said Quaker lane Between the Easterly side of said Lane and the corner of Mr Torreys Land the said Street contracts of a sudden being there but thirty one feet wide and continues contracting to the lower end of it at Mr Parrotts in Mackrel lane where it is Seventeen feet and an half wide.

The Committee are of Opinion that from Pudding Lane Eastward this Street should be forty feet wide; and to make it so, they propose that the North side of it as far down as Quaker lane

should be bounded by a Strait line to run from the Corner of said Quaker lane up to Pudding lane so as to take in one foot of said Pudding lane. This line would cut off the Elbow aforesaid and no way incommode the Abutters.

Between Quaker lane and Mackrel lane they propose that the Street should be widened on the North side, and in such a manner as to take in nine feet of the West side of the most Western Lot; and Twenty two feet and an half of the East side of the most Eastern Lot which will make this part of the Street 40 feet wide and perfectly strait. Some of the Abutters on this part of the Street should have a suitable Compensation for the Land taken from them.

The Committee also find that Milk Street where Treasurer Gray lives is 28 feet wide, and at the South East Corner of Col^o Wendell's Land 22 feet; thence it immediately widens to 27 feet, and continues that Width to young Mr Oliver's Corner; thence it contracts to 18 feet & runs of different Widths to the End of it where it is 22 feet wide.

The Committee think it would be proper that this Street from Mr Grays Eastward should be at least forty feet wide, and that so much of the Abutting Land on both Sides be taken into it, as will make the Street of that Width. Said Abutting Land to be taken wherever it will best serve to make the said Street most uniform and regular.

JAMES BOWDOIN.

A. OLIVER, JUN^R.

Boston April 8. 1760.

Which Report being read and considered after some Debate thereon.

Voted, That that part of said Report which relates to Water Street be accepted.

And on that part of the Report respecting Milk Street —

Voted, That the said Committee be desired to perfect their Report as to the running of the Lines.

Also Voted, That the said Committee be desired again to take a View of the lower part of Water Street, and further consider and report thereon.

Adjourned to tomorrow afternoon 3 o'clock.

At a Meeting of the said Committee April 11. 1760.

Present. His Honour the Lieut Gov^r.

Capt. Osborne.	Capt. Erving.	Mr Cushing.
Col ^o Wendell.	Mr Bowdoin.	Capt. Hewes.
Major Watts.	Mr Hubbard.	Mr Austin.
Mr Oliver.	Mr Henshaw.	Mr Oliver jun ^r .
	Col ^o . Jackson.	

James Bowdoin, Esq. from the Committee on Water Street and Milk Street — made the following further Report — Viz^t.

With regard to Water Street the Committee are further of Opinion that it should be continued from Maekrel lane Easterly to the New proposed Street; the North side of it to be run from Mackrel lane on a line with the Southerly end of Mr Wheelwrights

Brick Warehouse; and the South side to run Parallel with said line at 30 feet distance which will make this part of the Street 30 feet wide and perfectly strait.

With regard to Milk Street, the Committee find there must be a small bend in said Street to the Eastward of Mr Gray's, Vizt. on the West side of Mr Dowse's Land at feet distance from his Corner. From this Point (where a Stake is driven) to a burnt Post on the North side of the Street, near the Mouth of a Common Shore where the Angle will be, is 40 feet. The Committee propose that 12 feet be taken from the Abutting Land on the North side opposite to Mr Gray's; and from thence that a strait line should be run to the burnt Post aforesaid near the Mouth of the Common Shore aforesaid, and from thence another strait line to the Corner at the East end of the Street on the North side which will complete the north side of the Street.

With respect to the South side of the Street they propose that a line should be run from Mr Gray's on a range with Mr Bourn's house to the Stake aforesaid on the West side of Mr Dowse's Land; and from thence to Battery March Street, to strike said Street at 40 feet distance from the Corner aforesaid on the North side of said Milk Street.

These lines complet the Street and make it perfectly Strait from Mr Gray's to Mr Dowse's, and from Mr Dowse's to the End of it; and forty feet wide through that whole length, agreeable to these Lines the Committee have Caused the Street to be staked out.

The Committee are also of Opinion that a Lane should be made from Milk Street to Water Street in the direction of Horn lane to open into Water Street through the Land belonging to Mr Beighton & Mr Walley and that it should be strait and twenty one feet wide. — Horn lane from Milk Street will make a part of this proposed lane till it turns Westward; this Western part of Horn Lane is proposed to be shut up.

Boston April 11. 1760.

Which Report being read, after some Debate thereon, Voted. That that part of the said Report which relates to Water Street be accepted.

Voted. That the whole Committee go upon the Ground and take a View of the lower part of Milk Street before they come to a determination upon the Committees Report respecting the said Street, and that the same be attended this afternoon at 6 o'clock.

Upon Application made by Francis Borland, Esq. Liberty is granted him to rebuild his Warehouse on the wharf to the Eastward of Mackrel Lane near Olivers Dock; provided the same be built with Brick or Stone and Covered with Slate or Tile agreeable to Law.

The Committee appointed the 10th instant, to Stake out Leveretts Lane — make the following Report, — Vizt.

The Committee for Widening Leveretts Lane agreeable to directions have Staked it out and find it will be Crooked if it run as agreed upon. And therefore would propose that the East side of Leveretts Lane keep a strait Course till it meet with Water Street, that it be 30 feet wide against the Northerly part of Deacon Salter's Land, and that it be 35 feet wide where it meets with Water Street.

It is further proposed to Open a Street of 35 feet wide through Mr Dalton's Land to Milk Street as near as may be upon a line with Leveretts Street.

Upon Application made by Capt. Bartholomew Cheever, Liberty is granted him to rebuild his Warehouse in King Street, provided the same be built with Stone or Brick and Covered with Slate or Tile agreeable to Law.

Andrew Oliver, Esq. from the Committee appointed to ascertain the Lines of Mackrel Lane, and of the Street leading from the

lower end of King Street to Battery March make the following Report — Vizt.

The Committee appointed to ascertain the Lines of Mackrel Lane, and of the Street leading from the lower end of King Street to Battery March have caused the same to be staked out, (each of them to be forty foot wide) as follows — Vizt.

The West side of Mackrel Lane to run upon a Line with the East end of the House occupied by Mr James Gooch to a point upon a Line with the Front of Mr Lindalls Brick Buildings, and from thence to run on a strait line till it touches young Mr Oliver's Brick Wall before his House at Seven feet distance from his North East Corner: The East Line will then come Seven feet on Mr Powells Corner opposite so as to open Mackrel Lane and Oliver Street fairly into each other.

These Lines seem most convenient as they will take in as much of the Old Street as can be taken in, in any other direction, and the Bend being near the Middle will be less perceptible than if it were made in any other part of the Street.

James Bowdoin, Esq. from the Committee on Horn Lane and the Common Shore in Milk Street as entred the 12th instant, made the following Report. Vizt. The Committee propose that this Horn Lane should be widened on the East side of it, by taking into it — feet of the Southerly line of Winter Calefs Land where it bounds on Milk Street; and to run from thence on a Strait line through said Calefs Land and Thomas Walley's Land so as to take in — feet of said Walleys Front upon Water Street. The West side of

said Lane to run Northerly from Milk Street on the same line as heretofore till it strikes the Rear of Mr Beighton's Land; then to run through said Beighton's Land on the same strait course to Water street where it will take in — feet of said Beighton's front. These lines will make the said Lane strait and twenty one feet wide.

The Committee propose also that the Mouth of the Common Shore before mentioned on the North side of Milk Street, lying within the aforesaid Land of the aforesaid Winter Calef should be feneed off and be no longer within private Property; that it may be come at more readily to be Cleansed when necessary; and for this purpose that there be taken from said Calefs Land a peiece measuring 12 feet on said Milk Street and running back of that Wedth fourteen feet.

Upon Application made by Mr Jonathan Mason, Liberty is granted him to rebuild his Dwelling house in Cornhill; provided the same be built with Brick or Stone and Covered with Slate or Tile agreeable to Law.

The Question was put. Whether Bread Street should be made Wider than Twenty five feet as laid out by the Selectmen before the last Fire?

It passed in the Affirmative.

Voted: That the said Street be laid out Thirty feet in Wedth

Judge Sewall from the Committee appointed to prepare the Draft of a Bill to be presented to the Great and General Court, for Confirming the Doings of this Committee with regard to laying out the Streets &c reported the same — which was read and approved by the Committee.

John Erving, Esqr. from the Committee on Milk Street &c make the following Report; Vizt.

The Committee to whom was referred the Consideration of what Alteration it may be necessary to make in Milk Street, have viewed said Street and find if it should be laid out agreeable to the report made by a Committee the 11th of April last, it will be very Expensive to the Town as well as very detrimental to the Proprietors. especially on the North side of said Street.

They would therefore propose that the North side of the Street be laid out in the following manner, that Twelve & half feet be taken from the Land to the North West Corner of Mr Bourns house. from this point (where a Stake is fixed) the street to run on a Line to the Eastward to a Stake near the Cinque in Mr Calef's Land. from thence on a Line to the South East Corner of Colo. Wendells Brick Wall, from thence on a Line to a Stake fixed at the North East Corner of said Street, which will Compleat the North side thereof.

They would propose the South side of said Street to be laid out in the following manner, that it run on a Line from the North East Corner of Mr Bourns house to a Stake near Mr Dowse's Land, opposite to, and at 40 feet distance from the Stake afore-said nigh the Cinque in Mr Calefs Land, from thence on a Line to a Stake in Mr Prouts Land, opposite to and at Forty feet distance from the South East Corner of Col^o. Wendells Brick Wall, from thence on a Line to Battery March to Strike said Street at Forty feet distance from the Stake placed at the North East Corner of Milk Street.

These Lines Compleat the Street and will render it very com-

modius, the Committee have accordingly caused the Street to be Staked out, and do now exhibit a Plan agreeable thereto.

The Committee propose that the Cinque before mentioned on the North side of Milk Street lying in the aforesaid Land of the aforesaid Calef should be fenced off and be no longer within private Property that it may be come at more readily to be cleansed when necessary and for this purpose that there be taken from said Calefs Land a Peice measuring Twelve feet on said Milk Street and running back of that Wedth fourteen feet.

The Committee further report that the Street called Battery March be continued from Milk Street towards Mr Hallowells upon the same direction with the Pavement now there, said Pavement to make the West side of the Street, and that it be made Forty feet wide by taking in part of the ship yard or Eastern side for that purpose.

The Committee further report that the Street called Bread Street leading from Maekrel Lane to the lower part of Milk Street be Widened to Thirty feet by taking in the Land on the East side of said Street, excepting the Land that is already staked out on the West side

James Bowdoin, Esq^r. from the Committee appointed on Mackerel Street and Bread Street; made the following Report. — Vizt.

The Committee last appointed to lay out Mackrel Street and Bread Street, report as follows, Vizt. That the Westerly side of Mackrel Street shall run as heretofore from the N. E. Corner of the late Treasurer Foye's house in King Street (now Occupied as a Tavern by Mr Gooch) to the Southerly end of the Brick Wall of Mr Perkins's late Dwelling house about 145 feet; and from thence on a Strait line to a Stake ranging with the Southerly side of Mr Parrotts house at the distance of 40 feet from the S. W. Corner thereof, and from thence on the same line to Milk Street; These Lines compleat the Westerly side of the Street which will be nearly strait; The Easterly side of said Street between Milk Street and Water Street shall be Paralell with the Westerly side at the distance of Forty feet; This Easterly side will just touch the S. W. Corner of Mr Parrotts house; From King Street the Easterly side of said Mackrel Street shall run from a point Forty feet to the Eastward of the North East Corner of the late Mr Foye's house aforesaid, from thence on a Strait line to the N. W. Corner of the Cellar Wall of Mr Alford's late Warehouse, or to the S. W. Corner of the head of Oliver's Dock both said Corners being of the same point; From said point (where the Street will be about 40 feet Wide or a little more) it shall run about 103 feet to a Stake on the Northerly side of a passage way leading down to Mr Wheelwright's Brick Warehouse, at which stake the Easterly line of Bread Street being continued across said Passage Way will Strike, — With regard to Bread Street the Committee propose that the Westerly side thereof shall run Northwardly from Milk Street from the Old Westerly Corner to a stake (ranging with the Southerly side of Water Street,) at forty eight feet distance from the N. E. Corner of the Brick Wall of Mr Parrotts late Dwelling house; This Last mentioned Stake shall be the Corner formed by [the] Southerly line of Water Street, and the

Westerly line of Bread Street; And the Easterly side of said Bread Street shall be paralell with the Westerly side thereof (above described) and distant therefrom Forty feet in every part; and all the Land lying between the Westerly & Easterly lines of Mackrel Street, and the Southerly line of Water Street as they are above described shall for the future lie open and make part of the Public Way,

James Bowdoin, Esqr. from the Committee appointed to lay out Battery March Street and the lower part of Purchase Street, made the following Report, Vizt. The Committee appointed to lay out Battery March Street and the lower part of Purchase Street, having viewed the same report. — First with regard to Battery March Street — That the line from Mr Hallowells to the lower Corner of Mr Ingersoll's Cellar Wall shall continue as formerly; from the lower Corner of said Cellar it shall run 84 feet to a stake which ranges with the Front of said Wall, at this Stake will be the turning of the Street from whence the Line shall run to the nearest or Northeast Corner of Mr Eddy's house about 81 feet from thence on the same line to the nearest or Northeast Corner of Col^o. Wendell's Bakehouse about 309 feet from thence on a Strait line to the farthest or Southeast Corner of Col^o. Wendell's Distill house about 168 feet; from thence about 205 feet on a strait line to a Stake which ranges with the Southerly side of the Cellar Wall of a House of Col^o. Wendell's lately occupied by Mr Allen; this stake is 5 feet distant from the S. E. Corner of said Cellar, & here the Street has a considerable turning, from said stake the line shall run strait about 68 feet to a stake on the Southerly side of Seonce lane at 120 feet distance from Purchase Street from thence about 128 feet to a stake on the Northerly side of Alex^r Hunts Land at 120 feet from Purchase Street aforesaid.

The above described lines which are all strait compleat the Land side of Battery March Street from Mr Ingersolls as far Southward as the Fire extended; the opposite side of said Street next the Sea shall be Paralell to the side above described and in every part at 40 feet distance therefrom

Secondly, With regard to Purchase Street, the Committee report, That the Easterly end of said Purchase Street shall be widened in the following manner; Vizt. the Northerly side of said Street shall begin at a stake in the Westerly line of Battery March at 61 feet distance from the nearest or South East Corner of Col^o. Wendells Distill house; from thence it shall run about 119 feet on a strait line to the South Easterly Corner of the Cellar Wall of a House belonging to Col^o. Wendell where Mr Audebert lately dwelt, from thence it shall run as heretofore as far as Mr Alex^r Hunt's Dwelling house, & the Southerly side of said Purchase Street shall be 30 feet distant from the other side and parallel

therewith as far as said Hunt's Dwelling house aforesaid; which is as far as the Fire extended in that quarter.

The Committee agreed that the Lines of Bread Street should be run strait as near as may be to Battery March Street,— and Mr Cushing and Mr Austin were appointed a Committee to view the Ground & run the Lines, and see whether the same is practicable.

The following Report was made relating to Battery March from Milk Street to, Mr Hallowell's — in case there should be no New Street laid out from King Street which was Read and Accepted — Vizt.

That Battery March Street be continued from Milk Street towards Mr Hallowell's House in the same direction with the Pavement now there, said Pavement to make the West side of the Street, and that it be made forty feet wide by taking in as much of the Land on the Easterly side of said Pavement as shall be sufficient for that purpose.

The following Report relating to Leverett Street, was omitted being recorded — Vizt.

That Leverett Street be widened & laid out in the following manner, Vizt. That the East side of said Street from King Street to the Southwest Corner of Lindalls Building remain as formerly; from thence it shall run in the same direction to Water Street; This last mentioned line compleats the East side of the Way and will leave a Gore of the Old Lane to be purchased by the Abutters, This Easterly side will be perfectly strait.

That it be 30 feet wide against the Northerly part of Deacon Salter's Land and that it be 35 feet wide where it meets with Water Street; and that so much of said Salter's and the other Abutters Land on the West side of said Street be taken into it as to make it of that Wedth, and the same is staked out accordingly.

GREEN & RUSSELL'S

BOSTON POST BOY & ADVERTISER

Boston March 24. 1760.

Between 11 and 12 o'Clock at Noon on Monday last, a Fire broke out at the West Part of the Town, New Boston so called, by some Accident, whereby a Joiner's Shop was consumed, and a large Dwelling-House adjoining thereto, was a great Part of it, destroyed, and many Things therein Burnt; and several other Houses much damaged in the Neighbourhood: The Wind blowing very high at N. East, it was a considerable Time before it was extinguished: The Roof of the West-Meeting-House caught on Fire in several Places — But by the Dexterity of the People, and a constant supply of Water, a Stop was at length put to it — And, on the Day following, between X and 11 o'Clock in the Forenoon, a Store at the upper End of Mr Griffin's wharf, the Chamber of which was improved as a Laboratory by the Detachment of His Majesty's Train of Royal artillery now here, caught on Fire by some Accident; the Fire soon got to some Powder that was therein, whereby the Building blew up, and some of the Implements, Small-arms, and Stores, were destroyed; tho' the Damage to the Train was not so great as it has been reported, or as it was first imagined to be; four or five Men, who were at work in the Time of the Explosion, were wounded, and two of them very much burnt. In the under Part of the Store, a Variety of Merchandize, Provisions, Salt, etc. belonging to Mr Griffin, were consumed or damaged, which, with the Building, makes the Loss very great to him. A Carpenter's shop was burnt and a Blacksmith's much damaged: This last between the Place where the Fire began, and the Warehouses on the lower End of the Wharf, wherein were deposited the chief of the Artillery-Stores; but the Wind being moderate, and a Plenty of Water, the Tide being up, a Communication of the Flames with those Stores was, by the Vigilance of the People, seasonably prevented: One or two of the Granada Shells, and a few Small-arms went off during the Fire: But, thro' Divine Favour, no lives were lost. The Explosion was so great at first that a considerable Shock was felt even to the extreme Parts of the Town.

But the 20 of March will be a day memorable for the most terrible Fire that has happened in the town or perhaps in any other part of North America; far exceeding that of Oct. 2, 1711, till now termed the Great Fire. It began about Two o'clock in the Morning in the Dwelling House of Mrs. Mary Jackson and Son, at the Brazen Head in Cornhill [Washington street, nearly opposite Williams court] but the Accident which occasioned it is yet uncertain. The flames caught the House adjoining in the front of the St. and burnt three or four large buildings; a Stop was put to it there at the house of Mrs. West on the South, and Mr Peter Cotta on the North, but the Fire raged most violently toward the East. All the Stores fronting Pudding Lane [Devonshire street] together with every Dwelling House, from thence Excepting those

which front the South side of King-St. and a Store of Mr Spooner's on Water St. to Quaker-Lane [Congress street] and from thence only leaving a large wooden House and the House belonging to the late Cornelius Waldo, it burnt every House, Shop, Store, out-House &c. to Oliver's Dock. And an Eddy of wind carrying the Fire contrary to its Course, it took the Building fronting the lower Part of King St. and destroyed the Houses from the Corner opposite the Bunch of Grapes Tavern [in State street, just below the Old State-House] to the Ware house of Mess^{rs} Box and Austin. leaving only the warehouse of the Hon. John Erwing and Dwelling House of Mr Hastings, standing. The other Brick warehouse was damaged. The fire extended from Mr Torreys the Baker in Water st. and damaging some of Mr. Daltons new shops, proceeding to Mr Halls working house from there to Milk st. and consumed every house from there to Mr Calef's Dwelling house [in Milk street, corner of Congress, afterwards the famous Julien's restaurant, which stood until July, 1824] to the bottom of the street, and the opposite way, from Mr Dawes's included it carried every house from Fort Hill except the Hon Secretary Olivers and two or three Tenements along Mr. Hallowell's Shipyard his dwelling House the Sconce of the South-Battery all the Shops and Stores on Col. Wendell's wharf, and two or three Ships and a Schooner were burnt one laden with wood and another with considerable value. It consumed near 400 Dwellings Houses Stores Shops Shipping &c. together with Goods and Merchandizes of almost every kind to an incredible Value; but it is not ease to describe the Terror of that Fatal morning. The alarm was great and an Explosion of some powder soon followed which was seen and felt to a great Distance. The chief part had been removed by some hardy adventurers, just before the Explosion, the same time cinders and Flakes of fire were seen flying over that Quarter, where was repositied the remainder of the artillery stores, and combustibles which was preserved from taking fire. The people in this and the neighboring towns exerted themselves to an uncommon Degree and were encouraged by the Presence and example of the Greatest Personage amongst us, but the haughty Flames triumphed over our Engine — our Art — and our numbers. The distressed Inhabitants of those Buildings now wrapped in Fire scarce knew where to take refuge from the devouring flames; The Loss of Interest cannot as yet be ascertained or who have sustained the greatest, it is said that the damage which only one man has received cannot be made good with £2000 Sterling it is in general to great to be made in any measure by the other Inhabitants exhausted as we have been by the great Proportion this Town has borne the extraordinary Expence of the War and by a demand upon our charity to relieve a number of sufferers, and without the compassionate assistance of our Christian Friends abroad, distress and ruin may overwhelm the greatest Part of them.

In the midst of our Distress we have great cause for Thanksgiving, that notwithstanding the rage of the fire, the explosion at the Small Battery, and the falling of the walls, and chimneys,

Devine Providence, who so mercifull ordered it not one life has been lost and few wounded.

The following is from a List of the Persons who dwelt in the Houses, which are now consumed, which was taken by the Assessors in November last; And altho' it may not be exact, so that it can be determined who are the greatest Sufferers, yet it may serve until a more compleat Account be given. — Several Widows and a few others are probably omitted, which we could not come to the knowledge of, and some of those who are inserted wrong placed, which our Readers will excuse.

Apthorp & Gardiner's warehouse, John Knight's ditto, Bart. Cheever's ditto, where the fire was stopped.

There is upwards of 60 Dwelling-Houses, shops and other Buildings consumed, besides those mentioned above, which we have not Time to insert in their proper Places.

The light of the Fire was seen at Portsmouth which is the farthest place we have as yet heard from, and the Explosion occasioned by the Gun-Powder at the South-Battery was heard at Hampton, and many other places, and was thought by many to be an Earth-quake.

The following is a copy of a Vote passed by the great & general court on the 22^d inst :

attest

A OLIVER Sec.

The House taking into consideration that part of his Excellency's speech respecting the calamity brought on the town of Boston in the late fire, and it appearing on the best information that could in so short be obtained that there was consumed 174 dwelling houses and tenements and 175 ware houses, shops and other buildings with a great part of the furniture besides large quantities of merchandize, and the stock and tools of many tradesmen ; that the loss upon a moderate computation, cannot be less than £100,000 sterling ; and it further appearing that the number of families inhabiting the aforementioned houses were at least 220 three quarters of whom are by this misfortune rendered incapable of subsisting themselves, and a great number of them are reduced to extream poverty and require immediate relief.

Voted, That his Excellency the Governor be desired to send briefs throughout the province, strongly recommending the unhappy case of the sufferers to the inhabitants, and calling upon them for a general contribution, to be paid into the hands of the Select-men and Overseers of the poor of the town of Boston, to be by them distributed as they in their discretion shall judge proper.

And inasmuch as the necessities of many demand a more speedy succor, it is further voted, That there be advanced and paid out of the public treasury, into the hands of the Select-men and Overseers aforesaid, the sum of Three Thousand Pounds out of the money raised by Excise the year past.

The said Select-men and Overseers to lay an account of the money raised by the publick contribution before this court, and of their distribution thereof, and of the sum received out of the Public Treasury.

Several necessities were sent the sufferers by the selectmen and gentlemen of the town.

“¹ March 22, 1760. The Secretary by order of his Excellency the Governor delivered the following message to the two Houses respectively.

Gentlemen of the Council and House of Representatives. As the late Fire in the Town of Boston hath laid Waste a Quarter that is extreemely well Situated for carrying on the Trade of this Metropolis of the Province if some effectual measures were taken to regulate, and Widen some of the Streets which now lye desolate, and to Open any New Streets or Lanes that might be judged useful, and to prevent the more effectually the building with Wood :

I should hope in course of time that this ruinous Quarter of the Town would be rebuilt in such manner as to make it as Safe beautiful and commodious as any part of the Town whatever ; and in the end prove an encouragement to the Trade and business of it.

The Parliament of England in their Wisdom thought fit after the Great Fire which happened in London in the year 1666, to Enact a Law for rebuilding the City many of the Regulations men-

tioned in that Law must suit the present Case of the Town of Boston. The Lord Mayor, Aldermen and Common Council were impowered to lay out Streets: and adjust any differences that might be occasioned thereby, to regulate the Buildings, and prevent exorbitant prices of Materials and Workmen. I would recommend it to your Serious consideration whether some of the magistrates or Selectmen of this Town might not with Propriety be Vested with some of the like Powers for carrying into Execution so useful a Design here.

March 22^d 1760

March 25, 1760. In the House of Representatives The House agreeable to the Order of the day entered into the consideration of his Excellencys Message of the 22^d Instant and after a debate — Voted That the members of the Town of Boston together with Mr Higginson, Mr Hatch, and Capt Goldthwait with such as the honourable Board shall appoint be a Committee to take the said Message under consideration and report.

In Council Read and Concurred. And his Honour the Lieut Governor, Jacob Wendell, Benjamin Lynde, Andrew Oliver, James Bowdoin, and Peter Oliver Esqrs are joined in the Affair." Ibid., p. 296.

CHAPTER 30.

AN ACT FOR THE PREVENTION OF DANGER AND INCONVENIENCE IN REBUILDING THAT PART OF THE TOWN OF BOSTON THAT WAS LATELY CONSUMED BY FIRE.

Whereas, by the late desolating fires in the present year of his majesty's reign, a great number of buildings in the town of Boston have been demolished, and a large track laid waste; to promote the building thereof in the most safe and commodious manner, —

Be it enacted by the Governour, Council and House of Representatives,

[SECT. 1.] That Thomas Hutchinson, John Osborne, Jacob Wendell, Samuel Watts, Andrew Oliver, Joseph Pynchon, Stephen Sewall, John Erving, James Bowdoin, Thomas Hancock and Thomas Hubbard, Esquires, members of his majesty's council, together with the present selectmen of the town of Boston, be and hereby are fully authorized and impowered to lay out any new streets or lanes, in such places and of such breadth and length as they shall think proper, within the limits of the track so laid waste as aforesaid, and to widen, ascertain, alter and discontinue any streets or lanes heretofore laid out within the same limits. And any person or persons that shall have their land taken away or lessened, or be otherwise injured thereby, shall and may recover the damages by them sustained, agreeable to the directions of an act made in the fourth year of the reign of King Willian & Queen Mary, intituled "An Act for building with stone and brick in the town of Boston, and preventing fire."

And be it further enacted —

[Sect. 2.] That no person shall erect, build or rebuild any house, barn, shop or other building whatever, before the twentieth day of June next, within the limits aforesaid, without leave first obtained of the said members of the council and the selectmen, or the major part of the whole, being met together, in writing, under their hands, and unless the same be placed on such spot, and be of such kind, dimensions and fabrick, as the said members of the council and the selectmen, or the major part of the whole, shall allow and approve of.

[Sect 3] And every house or other building erected or rebuilt contrary to the true intent of this act shall be deemed a nuisance. And the said members of the council and the selectmen, or the major part of the whole, are hereby authorized and empowered to prostrate and remove the same, and dispose of so much of the materials thereof as shall be necessary to defrey the expence of prostrating and removing the same.

[Passed and published March 29, 1760.]

CHAPTER 9.

AN ACT FOR THE BETTER REBUILDING THAT PART OF THE TOWN OF BOSTON WHICH WAS LAID WASTE BY THE LATE FIRE AND FOR PREVENTING FIRE IN THAT TOWN FOR THE FUTURE.

Whereas great desolation hath been lately made by fire, in the town Boston, which hath been principally occasioned by the narrowness of the streets, and the houses being built with wood and covered with shingles; *and whereas* a committee was appointed by the general court, in the last session, for regulating the streets in that part of the town which was so laid waste, and the committee hath accordingly proceeded to lay out the streets there, a plan whereof hath been laid before this court, and is now deposited in the secretary's office, —

Be it therefore enacted etc.

[Sect 1.] That the said proceedings of the committee be and are hereby confirmed; and all actions that shall be brought for recovering possession of any land lying within any of the streets laid out as aforesaid, or for damages sustained or occasioned thereby, shall be utterly and forever barred.

And be it further enacted

[Sect. 2.] That no building whatsoever be so erected as to encroach upon any street by them laid out as aforesaid; and that every building so erected be deemed a nuisance, and be accordingly demolished, by the order of any two justices of the peace for the county of Suffolk, the charges of such demolition to be paid out of the monies which shall be raised by the sale of the materials of such building, which, by the order of said justices, shall be sold for that purpose, unless the said charges shall be immediately paid by the owner.

And be it etc;

[Sect 3.] That if any person or persons whatsoever shall wittingly or willingly, without good authority, pluck up or re-

move any of the stakes or bound-marks which have been or shall be fixed or set up, by order of said committee, to distinguish and ascertain the streets aforesaid, and shall be thereof convicted before any two justices of the peace for the county of Suffolk, he or they shall for every such offence be imprisoned, by order of such justices, for the space of two months, unless he or they shall forthwith pay or cause to be paid to the treasurer of the town of Boston the sum of three pounds for the use of said town.

And whereas some persons may suffer damage by the laying-out of the streets according to the plan aforesaid, and others may receive benefit and advantage thereby, —

Be it etc;

[Sect. 4.] That Samuel Danforth, Samuel Watts and Joseph Williams, Esqrs., or any two of them, shall, on or before the tenth day of July next, summon a jury of twelve meet persons (none of which to be inhabitants of the town of Boston) to view the streets aforesaid, and the several tenements or lots of land, abutting thereon, and to estimate the damages which any person or persons may sustain by means of any street's being laid out as aforesaid, and likewise the benefit or advantage that may accrue to any person or persons thereby; and whatever damages any shall sustain according to such estimation shall be made good to the party endamaged, either by such particular person or persons as shall be thereby benefited, or by the town of Boston, or by both, in such proportion as the said jury shall find reasonable; and every estate so bettered or advantaged, as well as the owner thereof, shall be subjected to make good the sum assessed on account of such advantage; the charge of the jury, as well as the charge of laying out the streets, to be born and paid, in the like proportion, by the town or person so benefited.

And be it etc;

[Sect. 5.] That when the jury aforesaid shall have ascertained to the said justices the damages sustained by any person or persons by means of the laying-out any street or streets as aforesaid, together with the several sums to be paid by the town, or any particular persons, to make good such damages and defray the charges of laying out the streets, of summoning the jury, and of the justices and jurors attending on the business assigned them respectively, the said justices shall, within six days after the jury's report, give a certificate thereof, under their hands, to the assessors of the town of Boston; and those assessors shall, within two months after the receipt of such certificate, make an assessment on the inhabitants of the town for such sum as by the jury's report ought to be paid by the town, — and, likewise, on particular persons, for such sum as by the jury's report ought to be paid by them respectively, — and issue their warrants to the collectors, requiring them to collect and pay the same, within two months, into the town treasury. And the treasurer of said town shall, within three months after the issuing of such warrants, pay to the person endamaged, as aforesaid, the respective sums assigned them by the jury's report, in satisfaction for the damages by them sustained.

And be it etc;

[Seet. 6.] That where any pump, or well of water, by the laying out of any street as aforesaid, is taken into the street, the same shall be kept in good order at the expence of the persons dwelling near the same, or of the town, or both, as shall be agreed between such persons and the selectmen of the town; and in case they cannot agree before the sitting of the court of general sessions of the peace to be held within and for the county of Suffolk on the first Tuesday of October next, then the justices of the said court may and shall determine by whom, and in what proportion, the charge of maintaining any such pump or well, and keeping the same in good order, shall be borne, unless the town shall find it inconvenient for such pump or well to remain in the street, in which case the same shall be stop'd and filled up at the charge of the town.

And be it etc;

[Sect 7.] That no house or other building whatsoever, of more than seven feet in height, shall be erected in Boston, otherwise than of stone or brick and covered with slate or tiles; and that no house or other building already erected, of any greater dimensions than as aforesaid, shall be hereafter covered anew on the top, any otherwise than with slate or tiles, on penalty of fifty pounds, to be paid by the owner of the same for the use of the poor of the said town, to be recovered by an action brought for the same by the town treasurer.

And be it etc;

[Seet. 8.] That every dwelling-house which shall be built otherwise than by this act is provided, shall be subjected to a yearly tax of twenty pounds; and every warehouse, shop, stable or barn, to a yearly tax of ten pounds; to be paid into the town treasury by the occupier thereof for the use of the town: and the assessors shall accordingly add such sum or sums to the town tax of every such occupant yearly, over and above the sum with which he would otherwise have been taxed, and shall particularly specify the same in the tax-bill.

Provided, always, —

[Seet 9.] That it shall and may be lawful for any person to build of wood, any warehouse, shop or workhouse, upon any wharff where, in the opinion of the selectmen, no solid foundation can be had without great expence, on condition that the sides of such warehouse, shop or workhouse be covered with plaister or slate, and the roof covered with slate or tiles, any thing in this act to the contrary notwithstanding.

And whereas sundry persons have heretofore inconsiderately erected dwelling-houses or other buildings in a manner contrary to the provisions of an act made and passed in the fourth year of the reign of their late majesties King William and Queen Mary, intituled "An Act for building with stone or brick in the town of Boston, and preventing fire," —

Be it etc;

[Seet 10.] That every such person be indemnified and saved harmless from any prosecution for violating the act aforesaid:

provided that the house or other building so erected by him shall be covered with, slate, or with tiles, within ten years from the first day of June, one thousand seven hundred and sixty.

[Passed June 20. [1761]]
